Featherlite Switches on the Green Lights

MOU with the State Government but also to implement and generate 1 MW Solar Rooftop Photovoltaic system (SRTPV) on an industrial building.

A total number of 3,000 solar panels each generating 320Wp of power per day have been imported from Canadian Solar Inc. String inverters (16 numbers) manufactured by Delta Power Solutions Pvt. Ltd. support the power generation and transmission to Power Receiving Yard. The system has been integrated with State power supply Board and surplus power generated is fed into the grid. This major initiative by the company has reaffirmed Group's commitment to minimising environment degradation by reducing Carbon Footprint and helping the Government to achieve 'Electricity for All' by 2020 goal set by the Prime Minister.

The World must turn to the Sun to power our Future. "As the developing world lifts billions of people into prosperity, our hope for a sustainable planet rests on a bold, global initiative", said Prime Minister, Narendra Modi in one of his speeches.

Featherlite, one of the first manufacturing units in the state of Karnataka, took this seriously. Today, the company happens to be one of the first Office Furniture manufacturing plant which runs on 100% Solar Powered Energy. Featherlite is one of the first manufacturing units to not only sign an

Both Central and State Governments are extensively promoting alternative sources of energy to meet growing demands in rural and urban areas. With around 300 days of sunshine every year, India has best conditions in the world to harness Solar Energy. Rapid expansion of solar power is aimed to improve the quality of life of Indians. It can also create thousands of jobs in the Solar Industry besides improving environment, productivity and general health.

Feel the force within with Charagh Din's Red Carpet Collection

Be the centre of attention with CD Red Carpet Collection. Move in your own orbit and feel the cosmos turn its gaze on you. Become a cause as you adorn one such energy.
