# Collaborative Spaces Meet Modern Aesthetics

The modern workplace is changing. In a space where creativity and productivity work hand in hand, each employee needs a space that offers a balance between privacy and collaboration, efficiency and versatility. Featherlite offers ergonomic workstations that are designed to fulfil each client's specific needs.

## Perform

Contemporary, open space office systems where creative ideas are brought to life.

These workstations inspire an atmosphere where interactivity and employee collaboration are an integral part of the work environment. Every employee has a voice and a contribution, the Perform series helps these contributions to be heard. The use of premium materials like glass and fresh fabric shades gives the workstations a contemporary look. Perform's hypermodern, sleek design inspires an air of professionalism, while the colours and finish inject a bright sense of creativity into the workplace.

By nature, collaborative work requires less space and more opportunity to connect. Perform workstations respect space limitations while encouraging interaction.

Height Adjustable systems at LinkedIn, Bangalore

## Neo

A high quality, versatile, tile based office system that is designed to deliver high levels of productivity. Neo workstations provide employees adequately private individual spaces with modern, customisable aesthetics.

Neo brings together elements of simplicity and functionality to generate a positive and creative workspace. The office space can be configured, as required, to incorporate open or semi-private areas that foster dialogues.

Neo workstations also come with free standing tables integrated seamlessly with Neo's partition systems that allow users to adjust them to suit the required task. Height adjustment permits seated or standing work and allows for a healthy variety of postures through the day.

Some of our notable clients for the aforementioned office systems include: LinkedIn, Mercedes-Benz, Thomson Reuters, Oracle, Verizon, Lenovo, Airbus, Vodafone, Tally, Xerox, Google, Facebook and TCS.
