Advanced Hair Studio

Advanced Hair Studio (AHS), the world's largest hair replacement and hair re-growth company, recently conducted a hair care session with Delhi's renowned nutritionist Lovneet Batra and AHS Managing Director and CEO, Mr Sanket Shah, at the capital. Ms Batra believes that when it comes to healthy hair, food is the best medicine, because it heals inside and out. She strongly recommends a balanced diet rich in proteins, antioxidants such as vitamins A, C and E, vitamin D and minerals like zinc, selenium and iron. Advanced Hair Studio has also devised a unique procedure called Advanced Fitness Programme. The programme helps in thickening the existing thin and weak hair and re-growth of hair in areas where the hair follicles are still alive. This not only improves scalp condition but also the texture of hair.
